

Damien Hebert

[4100 Greenbriar Drive Apt 235] | [Houston, TX 77098] | [409-888-0036] | [damienhebert710@gmail.com]

Objective: To find efficient and innovative solutions for challenges and to contribute my skills in full stack development.

Experience:

Target Emissions/ Montrose Environmental Group Freeport, Tx: Environmental Field Technician

Sept 8, 2020 – currently employed

- Utilize knowledge of field equipment to tag and document valves/connectors in multiple facilities on-site at Freeport LNG.
- Analyze and understand P&IDs to locate their corresponding parts in the field. Also, using PI&Ds to perform Quality Assurance/ Quality Control of our database.
- Using OGI (Optical Gas Imaging) Camera and a Method 21 Bascom Turner device to scan field equipment and components for leaks, with proprietary mobile applications for quantifying and documenting the leaks.

Best Buy Beaumont, Tx Inventory Specialist

March 2018 – March 2020

- Packaging and distributing
- Managing store pickups
- Store security, Asset protection

Skills:

- Program languages: Javascript
- Web technologies: HTML, CSS, React, Node.js

Projects:

- Created a fully functional weather app called “Glowing Lamp” using HTML, CSS, and JavaScript. Also used Third-Party API’s to receive accurate data for weather.
- Task Tracker is a note taking app utilizing HTML, CSS, and JavaScript.
- Password Generator is a one time password application I made using HTML, CSS, JavaScript.
- My first portfolio I made utilizes the React Framework. It showcases a few projects I’ve worked on.

Education:

Rice University: Glasscock School of Continuing Studies

Certification: Full Stack Coding

Feb. 2022 - Aug. 2022 Houston, Texas
